Instagram Video Downloader: Save Instagram Videos to PC/Mac

To save Instagram videos on iPhone/Android or to repost Instagram videos, you can first download the videos on PC/Mac. This tutorial will introduce a simple and free-to-use Instagram video downloader to save someone else's Instagram videos to your Windows PC or Mac.

FonePaw Video Converter Ultimate can download videos from Instagram to your computer in simple steps: 1)download the Instagram video downloader on PC/Mac; 2)enter Instagram video URL; 3)click download. Compared to downloading Instagram video online, a video downloader on computer is **safer, more stable**, and can be used to **download videos from other sources** like YouTube, Twitter.

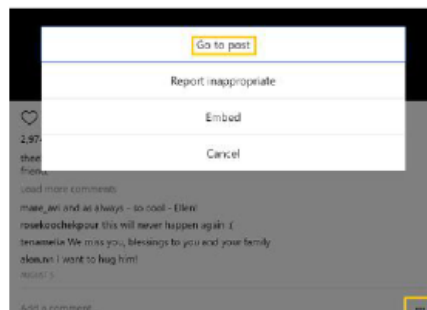

Moreover, with this Video Converter Ultimate, you can also edit the downloaded videos, for example, converting the Instagram videos to other formats (GIF, MOV, etc.), adding watermark, rotating or trimming Instagram videos and more.

How to Download Instagram Videos on PC/Mac

Step 1. Download and install the free trial version of FonePaw Video Converter Ultimate on your computer.

Step 2. Go to [instagram.com](https://www.instagram.com) and find the video that you want to save. Please notice that to download Instagram video from a private account, you need to follow the account first.

Step 3. Click the three dot icon on the bottom right corner of the post and **choose Go to Post**.

Step 4. Copy the Instagram URL in the search bar.
