Microsoft Word Desktop Download

KBourgeois wrote: I can not find Microsoft Word or Office on my desktop I just received my desktop a few weeks ago and thought everything came automatically down loaded in the system.. This helps give the correct answers troubleshooting your issues My wild guess is that you are using a Windows 10 computer.. You can access Microsoft Office from the Start menu, All Programs, Microsoft Office.. Convert PDF To Word Desktop Software, free and safe download Convert PDF To Word Desktop Software latest version: Super-fast, Accurate, Best Way to Convert any PDF files into Word documents.. My daughter needs the program for school work and just noticed this evening that I do not have it / or cant find it.. I am not sure if I need to down load the program If so, I need help with that Please advise, Thanks Hello KBourgeois, Usually, the Microsoft Office Suite that comes already installed on the system would require the Product Key to be added to the Microsoft Office Suite when you started to use the application.. If you want a Desktop Icon for the different applications included in the Microsoft Office Suite, this can be done quite easily.. In the future please post your computer's information Just like my example are My computers are: HP Touchsmart 600-1050 Windows 7 Ultimate 64bit and HP Pavilion DVt7-7000cto Windows 7 Ultimate 64bit.. If you purchased the Microsoft Office Suite at the time you purchased the system, you should have been shipped a Product Key with the system, in a small plastic wrapped package.

Hello L123_458: Welcome to HP's forum You did not provide your computer's information so I am taking a wild guess seeing above post did not help you.
